

**MANUAL OF THE INTERNATIONAL STATISTICAL
CLASSIFICATION OF DISEASES, INJURIES,
AND CAUSES OF DEATH**

Sixth Revision of the International Lists of Diseases and Causes of Death,
adopted 1948

Separate editions in English and in French

The *Manual* outlines the procedures to be followed in the compilation and publication of morbidity and mortality statistics as adopted by the Sixth Decennial Revision Conference, held in Paris, April 1948.

It provides for the first time a single list for coding both diseases and causes of death, and will therefore meet the needs not only of vital statistics offices, but also of hospitals, clinics, social security administrations, and other agencies compiling morbidity statistics.

Included in the *Manual* are WHO Regulations No. 1 regarding nomenclature with respect to diseases and causes of death, which were adopted by the First World Health Assembly to ensure as far as possible the uniformity and comparability of statistics of diseases and causes of death. This international law, which came into force for all Member States of WHO, except those States notifying rejection or reservation, on 1 January 1950, regulates the various steps in the compilation and publication of morbidity and mortality data.

**MEDICAL CERTIFICATION OF CAUSE OF DEATH :
INSTRUCTIONS FOR PHYSICIANS ON USE OF
INTERNATIONAL FORM OF MEDICAL CERTIFICATE
OF CAUSE OF DEATH**

Separate editions in English and in French

This booklet, an adjunct to the *Manual of the International Statistical Classification of Diseases, Injuries, and Causes of Death*, gives detailed instructions to physicians on how to fill out the International Form of Death Certificate, explaining, in particular, the order in which several morbid conditions leading to death should be recorded. Illustrative examples of certification are included, and an annex lists some of the more common inadequacies encountered in the recording of causes of death, together with the additional information which would be required for satisfactory classification according to the International Statistical Classification of Diseases, Injuries, and Causes of Death.
